

**Job Title:** Lineman Journeyman

**Location:** Barnett Southern Corporation

Barnett Southern Corporation is seeking a Journeyman Lineman with transmission line experience to join their team. This role involves the installation, construction, maintenance, and repair of overhead electric transmission lines. The position requires performing work on de-energized lines using cranes, man lift equipment, bucket trucks, or other specialized tools. Additionally, the Journeyman Lineman may be responsible for instructing lower-level classifications and is typically assigned to specific projects.

**Qualifications:**

- Minimum of 5 years of recent field experience in transmission line work.
- Proficiency in reading and effectively communicating in English.
- Commercial Drivers License is required.
- Willingness to travel long distances on short notice and work extended periods at various locations.
- Capability to lift over 50 lbs.
- Competence in inspecting rubber goods and personal protective equipment (PPE).
- Openness to working overtime when requested.
- Self-motivated with a comprehensive understanding of all aspects of line work.

**Responsibilities:**

- Safely perform new construction, maintenance, or repair work on de-energized overhead lines.
- Lead crew members in the absence of the Foreman.
- String overhead wire.
- Adhere to company safety rules and policies.
- This position typically operates on a four-day workweek, Monday through Thursday.

**How to Apply:** If you meet the qualifications and are interested in joining a team where your skills and dedication are recognized, we encourage you to apply. **Please apply on our website:** [barnettsouthern.com/careers](https://barnettsouthern.com/careers) or submit your resume and cover letter to [applications@barnettsouthern.com](mailto:applications@barnettsouthern.com) with “Lineman Journeyman” in the subject line.
